Winter Maintenance Reminders & Tips

- *Residents and property owners are required to remove snow & ice from sidewalks within 24 hours after the precipitation stops.
- *Snow or ice that cannot be removed without injury to sidewalk should be treated with sand or other abrasive material.
- *A shovel width path is all that is required to be cleared so that pedestrians can walk safely.
- *Snow should not be thrown back into the streets. Pile snow at the curb line where it will not impede clearing operations or traffic movement.
- *Residents can help avoid street flooding and freezing by clearing snow from on top of catch basins and away from gutters.
- *Shovel driveway aprons last to avoid having to re-shovel after snowplow passes by.
- *Any vehicles parked in the snow emergency route will be ticketed by the police – no exceptions will be made!
