Community News

Meet Our New Council Member: Zach Hoffman

My wife and I have proudly called Adamstown home for the past five years. Originally from Ephrata, we were drawn to Adamstown for its charm, quiet atmosphere, and its appeal as a wonderful place to begin our family. For the past four years, I have served on the Adamstown Planning commission, where I've focused on supporting the thoughtful growth and development of our borough. Professionally, I work in operations and quality control at Warfel Construction Company. Outside of work, I enjoy spending time with my family, traveling, and playing golf. I look forward to the opportunity to serve on council and to help preserve, prepare, and enhance the community we are all proud to call home.

Mr. Hoffman was sworn in at the January 5th council meeting and has begun his 4-year term on Borough Council.

Planning Commission Vacancies

We are looking for a new member to fill a vacancy on the Planning Commission (4-year term) as well as an Alternate (1-year term). The Alternate would fill in if a regular member is unavailable. If you are interested, please submit a Letter of Interest to the borough office.

IN THE KNOW

GENERAL INFORMATION

2026 Dog Licenses

All dogs must be licensed when you buy or adopt them (earliest is 8 weeks old) or 3 months of age, whichever comes first, by January 1 of each year. Failure to have your dog licensed may result in a fine of up to $500 plus court costs. For more information, please check out the News Flash on our borough website.

Street Light Outages

Please contact the borough office to report street light outages. Be sure to provide the pole number and closest property address and intersection.

Tax Collector

We would like to thank Rosemary Johnston for her many years of dedicated service to the borough! Going forward, real estate taxes will be collected by Amber Martin, Lancaster County Treasurer. Please contact her at 717-299-8222 if you have any questions. For those properties located in Berks County, we will be providing additional information in the near future.

Annual Rental License Reminder

2026 Rental License Applications have been mailed out o all rental property owners in the borough. Upon receipt, please fill out and return to the borough office along with your payment of $25 **per rental unit**, The deadline for submission is February 20.

Adamstown Borough
2026 Project Updates

Pump Station Elimination Project — The Black Angus Pumping Station located near the community pool will be replaced with a new gravity fed sanitary sewer main. The new line will connect to the existing gravity system at the Red Fox Court cul-de-sac. Work is expected to begin after Labor Day.

Sewer Relining Project — This project will complete the lining of the Borough's sanitary sewer interceptor using a cured-in-place pipe system. Approximately 3,739 feet of pipe will be lined, and fourteen manholes will be rehabilitated. Construction is expected to begin in late 2026 or early 2027.

Stormwater Repair 121 to 127 W Main St — The Borough will replace approximately 180 feet of deteriorated corrugated metal stormwater pipe between 121 and 127 West Main Street. Both inlet structures will be replaced, and new concrete stormwater pipes will be installed.

Stormwater Replacement Adamstown Rd & W Main St — This project involves replacing roughly 190 feet of aging stormwater pipe at the intersection of Adamstown Rd and W Main Street. Three inlet structures will be replaced as part of this work. Construction is expected to begin in late June to avoid school year traffic impacts.

W Main St Paving Project — W Main St will be repaved from Adamstown Rd to N Reading Rd in the summer of 2027. Ahead of this work, Borough staff will be contacting residents along the corridor to inspect curbs and sidewalks for damage. Property owners will be asked to repair or replace any failing sections of curb or sidewalk prior to the paving project.

Low Volume Road, Second Ave— A field review is planned for January, after which a design concept plan will be created for the Borough and Lancaster County Conservation District. This design will be used to apply for a Low Volume Road Grant that would support drainage improvements and partial roadway repaving.

SRBC Grant Work—Data is being compiled on residential water meter installations from the past three years. The grant request will focus on new meters & radios, leak-detection loggers for zoned monitoring, and upgraded pressure transducers for all three wells.

Community Days Sponsored Cash Bingo!!!

Come out for a day of fun playing Bingo! All proceeds support the annual Community Days event.

Where: Comfort Inn Lancaster County North

When: February 15 & March 29 from 2PM-5PM

Protect our Watershed

To protect your watershed, reduce runoff with rain barrels and native plants, dispose of waste properly (especially chemicals and pet waste), conserve water at home, and keep pollutants like fertilizers, oils, and litter out of drains and waterways by sweeping instead of hosing. Get involved by cleaning up local streams, planting trees, and supporting water conservation policies to keep your local water clean and healthy.
