

Borough of ADAMSTOWN

OFFICIAL NEWSLETTER - SUMMER 2026

A LETTER FROM THE COUNCIL PRESIDENT

Beginning 2026, the Adamstown Borough Newsletter will transition from a quarterly publication schedule to two issues per year. This change will allow the Borough to better manage printing and mailing costs while continuing to provide residents with important updates, community news, project information, event announcements, and other items of interest.

Although the newsletter will now be distributed semiannually, residents can still stay informed throughout the year by attending Borough meetings, visiting the Borough website, and following any official communication channels for timely updates and announcements. We appreciate the community's understanding and continued support as we work to provide information to residents in the most efficient and effective manner possible.

Randy Good
Adamstown Borough Council President

Muni-Link Water/Sewer Billing

the many benefits of eBilling

Borough of Adamstown CUSTOMER PORTAL

The Customer Portal provides you with the opportunity to access your account information and activity. In addition, you will be able to pay your bills using the portal

- Create your own portal account through self-registration
- **Sign up for eBills**
- View or print your bills (current or previous)
- View your billing, payment, and adjustment history
- View your usage history
- Pay your bills via Electronic payment

Go Green, Save a Tree

If every American household used eBills and online bill pay, it could reduce solid waste in U.S. landfills by more than 800,000 tons a year and help curb the release of greenhouse gases by 2.1 million tons, according to Javelin Strategy and Research. This could also save an estimated 18.5 million trees a year!

the CONVENIENCE of
RECEIVING
VIEWING
PAYING YOUR BILL
ONLINE

No more waiting for the mail. Make your life easy by receiving your bill online.
Our e-Bill is a secure way to receive and view your bill online. By enrolling in e-Billing, you'll conveniently receive an e-mail when your bill is ready for viewing online.
Say goodbye to paper bills and hello to convenience and less clutter!

Helpful Tips And Information

ADAMSTOWN GROVE RENTAL:

The Adamstown grove is the ideal location to host a family reunion, birthday celebration or picnic. There is a covered area with picnic tables and 2 charcoal grills nearby. The kitchen has 2 electric stoves and 3 refrigerators with freezers, and there are approximately 14 electrical outlets. Plan ahead and make your reservations now! The cost is $100 per day, which is non-refundable. There is no fee for Borough non-profit organizations. ***Please contact the borough office to book your reservation!***

Adamstown Borough Water/ Sewer Billing Process:

- Water meter readings take place quarterly (March, June, September & December).
- Water/sewer bills are mailed quarterly (April, July, October & January). With our new billing company Muni-Link, bills will be printed on ¼ page bright orange card stock.
- A 10% penalty will be applied after the due date.
- A 1.5% interest fee will be applied when the balance is 30 days past due.

Water/Sewer Payments: Effective with the next billing cycle, water/sewer payments will be processed in our borough office. Payments can be mailed to Adamstown Borough, PO Box 546, Adamstown, PA 19501, placed in the drop box in the Library parking lot just past the ramp, or in the drop box located in the stone area between the Dominos and the Adamstown Antiques Mall. ***Payments are not being accepted in the Borough office.***

Streetlights and Outages: If you see a streetlight that is out, damaged, or not working correctly; please contact the borough office and report the identifying number of the streetlight post. It also helps to provide the nearest property address to the defective light. The borough office will then report it to the appropriate utility company for repair.

Complaints: The borough investigates possible ordinance/property maintenance violations based on written complaints only. If you feel someone is in violation of a borough ordinance or property maintenance code, a complaint form must be completed and submitted to the borough office prior to any investigation. All complaint forms must be signed and dated. Any anonymous complaint form submitted will not be addressed. Forms can be found in the lobby of the borough building or on the borough website.

Grass/Weeds: Please remember that we have a property maintenance code that states grass/weeds cannot be more than 10" high. Keep sidewalk cracks free from weeds also, as this can become a tripping hazard! When cutting grass, do not blow it into the street, as it can clog storm drains and cause flooding issues. Do your part to keep your property looking nice by maintaining your grass to a length less than 10". Not only will it help to beautify the neighborhood, but it will also prevent you from receiving a violation notice.

Property Improvements: Before beginning any home improvements, please remember to check with the borough office to determine if building and/or zoning permits are required. Some examples of improvements requiring permits are decks, patios, driveways and sheds. Replacing siding, windows or roofing shingles do not require permits. Permit applications are available in the borough office lobby, or they could be downloaded from the borough website. Remember to also check with your local HOA or ARB (if applicable) before beginning any home improvements.

Unusually High Water/Sewer Bill???: If you notice that your water/sewer bill is higher than normal, consider checking for a water leak! A leaking toilet is often the culprit. A slow-dripping spigot could also increase your bill over the course of a billing cycle. *Visit our website (Borough News) for more information!*

Shutoff & Lien Notice Process:

- Shutoff notices are periodically done and mailed via certified mail to those property owners who have a delinquent balance over 180 days old, giving 30 days to pay the delinquent amount (lien notices are mailed to those property owners who have rental properties via the same process).
- Borough personnel will post properties of those who still have delinquent balances after the 30 days, giving a 48-hour notice to terminate water service (unless it is a rental property, at which time a lien is filed against that property).
- If the delinquent balance is still not paid after the 48 hours, the water is turned off. The property owner is responsible for paying the $50 shutoff fee as well as the $50 turn on fee in addition to the entire delinquent amount in order to have water turned back on.
- ***If you are experiencing financial hardship and are unable to pay the full delinquent balance to avoid water shutoff or a lien, assistance may be available through local organizations (Real Life Ministries, Denver and Ephrata Social Services, Ephrata). Because these programs often require an application process, please contact them promptly upon receiving notice. You may also attend a Council meeting to request an extension for payment of your outstanding balance. For more information, please contact the borough office.***

A LESSON IN MS4

What is an MS4? MS4 is short for, "Municipal Separate Storm Sewer System", where the word "Municipal" refers to a unit of local government like a borough or a township but may also refer to an organization responsible for the administration of a developed area. And the number 4 refers to the four words that start with the letter "S"; Separate, Storm, Sewer and System.

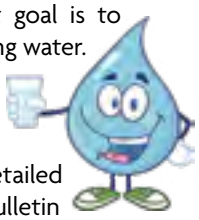

A separate storm sewer system is a collection of structures, including retention basins, ditches, roadside inlets and underground pipes, designed to gather stormwater from built-up areas and discharge it, without treatment, into local streams and rivers. It's called a separate system because it's not connected to the sanitary sewer system which drains wastewater from inside a home to a sewage treatment facility or a private septic system. Some communities in Pennsylvania do have combined storm and sanitary sewers. The areas served by these "combined systems" are not covered by the MS4 program.

The program is managed by the Pennsylvania Department of Environmental Protection or DEP, which fulfills this role to comply with federal mandates under the Clean Water Act. The Environmental Protection Agency (EPA) has an oversight role because they are the federal agency charged with implementing the Clean Water Act.

The authorization that MS4 communities get from the DEP to legally discharge stormwater into local stream and rivers is called an "NPDES" permit which stands for National Pollution Discharge Elimination System. The word "National" references the connection with the Federal Clean Water Act, and the word "Discharge" refers to the fact that separate storm sewer systems eventually release stormwater into local creeks, rivers and lakes, untreated. These particular NPDES permits are also commonly called, "MS4 Permits" or "Stormwater Permits." To meet the terms of their NPDES Permit, communities need to develop what's called a "Stormwater Management Program" (SWMP).

Written by Andy Yencha, Penn State Extension

2026 Water Quality Report: Our constant goal is to provide you with a dependable supply of drinking water. We make every effort to continually improve the water treatment process and protect our water resources. The 2026 Annual Water Quality Report is now available for review! Detailed information can be found on our hallway bulletin board or on our borough website.

Back to School: School is back in session on August 25th. Please be mindful of children walking to/from school and SLOW DOWN in the school zone!!!

Monthly Borough Meetings: Monthly Borough Council meetings are held on the first Tuesday of every month. Borough improvements, projects, issues, budgets and committee updates are among just some of the topics covered in the meetings. Planning Commission meetings are held on the third Tuesday of the month, on an as-needed basis. These meetings are scheduled to review the Zoning Ordinance, ZHB Applications, or other various applications or that need to be discussed. All meetings are held in the borough municipal office, 3000 N. Reading Road, Adamstown, unless advertised otherwise. Meetings begin at 7PM and are open to the public. We encourage you to attend!

Rental Property Owners: Please share the newsletter with your tenants. If they would like to receive future newsletters directly, please have them contact the borough office and provide their mailing address. Once their information is on file, newsletters could be mailed directly to them.

Adamstown Borough Rental Ordinance: Adamstown Borough has a rental ordinance which mandates that any property owner who rents their property must register that property with the borough office. There is an annual Rental License fee of $25 as well as rental inspections which are required every 3 years. Rental inspections are $85 per property. Please register your rental property to avoid violations. For more information or to obtain copies of the rental ordinance, please contact the borough office.

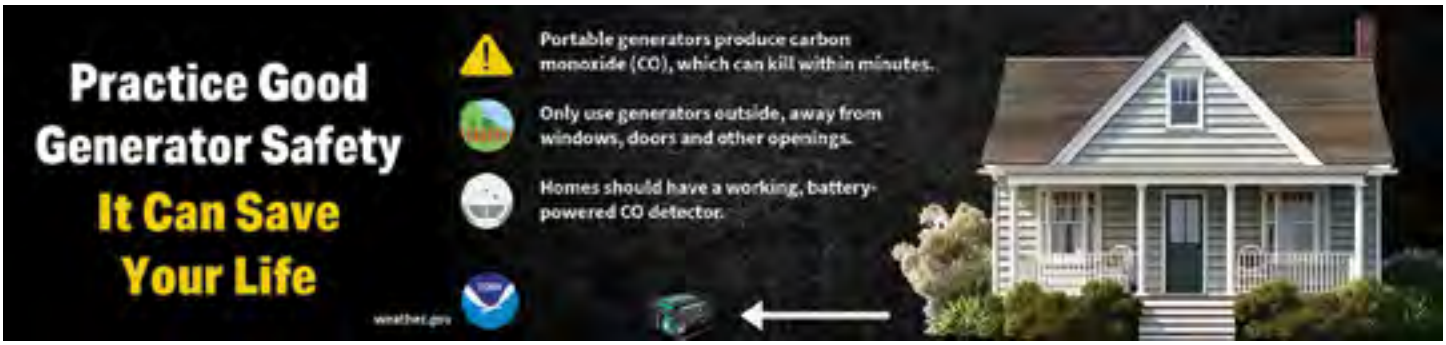

Tips to Look for a Water Leak in Your Home

The borough receives several calls per quarter from property owners who feel their water bill is higher than normal. If you have noticed an increase in your water use but don't see any visible signs of a leak, below are a few steps to follow to help determine if there is a leak in your home. If, after following these guidelines, you still think you have a leak in your home, it is best to hire a professional plumber.

- Leaky faucets are a major waste of water. One slow dripping faucet can waste up to 20 gallons of water a day. Over the period of a year this can add up to 6,000 gallons of water! Check all faucets in your home for any type of leak.
- If you own a dishwasher, it is suggested that you only run it when you have a full load ready to be cleaned. A typical dishwasher will use 15 gallons of water each load. Running partially filled loads is a waste of water. Check around the bottom of your dishwasher for leaks. Leave paper towels around the outside of the machine while it is in use. When the dishwasher stops running check the paper towels for signs of water. If you find water leaking, you should have your dishwasher serviced immediately.
- Leaking toilets are often the culprits. If your toilet runs often, have the mechanisms in the tank completely replaced. Some toilets have slow leaks that are not noticeable. Slow water leaks in toilets can waste up to 100 gallons of water per day. Drop some food coloring in the tank of your toilet. Watch the bowl of your toilet for 20 to 30 minutes to see if any of the food coloring appears. Check again in 15 minutes. If coloring appears, this means you have a slow leak. Be sure to flush your toilet after the test to avoid any staining in your bowl.
- If you have a hose connected to an exterior faucet you should check that for leaks. The best way to avoid this is to turn off the water supply at the faucet rather than relying on the hose spray attachment to stop the flow of water. A small leak can add gallons to your daily water usage.
- You can also use your water meter to check for any hidden leaks. Turn off all faucets and make sure you are not running any appliances that use water. Check the reading on your meter and do so again in a few hours. If your meter has moved, you have a hidden water leak somewhere in your home. A good time to try this test is at night. Read your meter before going to bed, then again in the morning. Assuming that no water has been used overnight, if the meter has moved at all you have a leak somewhere.

PARKS & RECREATION

Community Pool

The community pool is located at 272 W. Main Street and is run by the Adamstown Pool Committee. The facility is public and patrons could purchase a seasonal membership or pay the daily gate fee. The pool typically opens on the Saturday before Memorial Day through Labor day and is open 7 days a week. For questions on opening/closing due to inclement weather, contact the pool office at 717-484-2175 (this number is only in service during the pool season). For information on pool pavilion rentals or swim lessons, please contact the pool manager at poolmanager@adamstownborough.org. For pool membership questions, please contact the borough office at 717-484-2280.

Adamstown Community Pool is a CASHLESS entry

Mobile Wallets and Digital Payments are Accepted

Memorial Park

This park is located at the intersection of Adamstown road and West Main Street, below the elementary school and is owned by the borough, but has been developed into a memorial park by the Adamstown Lions Club. The borough maintains the park for the enjoyment of area residents.

Recreation Courts

The borough has 2 tennis courts, 3 pickelball courts and a basketball court just west of the swimming pool facility. You can access the courts through the pool parking lot. The courts are open to the public from 6AM to 10PM on a first-come, first-served basis.

Community Trail

The borough maintains a walking trail that runs from Stoudtburg Road to the grove. This trail has undergone numerous improvements in the past couple years, including much of the trail being overlaid with millings, directional trail signs installed at both ends and informational signs installed along the trail. Additional improvements are planned for the Community Trail in the future.

Adamstown Area Library

The Adamstown Area Library is located at 110 W. Main Street. The Library is run by the Library Board and financially supported through the fundraising efforts of the Friends of the Adamstown Area Library. The Library is open Monday-Thursday 9AM-7PM, Friday 11AM-4PM and Saturday 9AM-4PM.

The Library is part of the Lancaster Library System and as such has access to many, many volumes of books and publications. The Library has Internet access and has several computers available to patrons. It also offers programs throughout the year such as preschool story hour, literacy programming and instructional/ craft programs. Please pick up a monthly newsletter at the Library or contact them by phone at 717-484-4200.

Adamstown YMCA

This facility is a branch of the YMCA of Reading and Berks County. It is located at 71 East Main Street and runs and/or sponsors numerous programs throughout the year. The building has a basketball/volleyball court, game room, meeting room, and weight room. The building is available for birthday parties, family reunions, etc. Recent renovations provided additional improved parking areas, locker room facilities, and gymnasium. Please contact the YMCA at 717-484-4996 for further details regarding hours of operation, membership and program information.
